

ZTO Express

Q2 of Fiscal Year 2018

Investor Relations Presentation

August 9, 2018

This presentation contains “forward-looking” statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended, and as defined in the Private Securities Litigation Reform Act of 1995. These forward-looking statements include but are not limited to our unaudited results for the second quarter of 2018, our management quotes and our financial outlook for the third quarter of 2018.

Our forward-looking statements are not historical facts but instead represent only our belief regarding expected results and events, many of which, by their nature, are inherently uncertain and outside of our control. Our actual results and other circumstances may differ, possibly materially, from the anticipated results and events indicated in these forward-looking statements. Announced results for the second quarter of 2018 are preliminary, unaudited and subject to audit adjustment. In addition, we may not meet our financial outlook for the third quarter of 2018 and may be unable to grow our business in the manner planned. We may also modify our strategy for growth. In addition, there are other risks and uncertainties that could cause our actual results to differ from what we currently anticipate, including those relating to the development of the e-commerce industry in China, our significant reliance on the Alibaba ecosystem, risks associated with our network partners and their employees and personnel, intense competition which could adversely affect our results of operations and market share, any service disruption of our sorting hubs or the outlets operated by our network partners or our technology system. For additional information on these and other important factors that could adversely affect our business, financial condition, results of operations, and prospects, please see our filings with the U.S. Securities and Exchange Commission.

All information provided in this presentation is as of the date of the presentation. We undertake no obligation to update any forward-looking statement, whether as a result of new information, future events or otherwise, after the date of this release, except as required by law.

Market Opportunity

- Significant growth opportunity driven by strong growth of China e-commerce
- Favorable government policies and industry regulations supporting growth
- Largest market share in terms of parcel volume of 17.4% in 2Q 2018

Business Model

- Owned and operated sorting & transit network/platform integrated with network-partner outlets
- “Shared-success” system provide fairness by aligning interests and balancing conflicts
- Scale, automation and lean management enabling operational efficiency and cost leadership

Team/People

- Highly experienced team with thought leadership and long-term vision
- Effective execution and empowering organizational structure
- Stable partner network connecting millions of courier entrepreneurs

Scale Innovation

- Highest nationwide coverage with flagship presence in strategic locations
- Early-mover investments in infrastructure and innovative automation
- High barriers to entry and track record of economies of scale

Operational Excellence

- Centralized planning and monitoring and real-time data analytics
- Leading I.T. capabilities in automation, ecosystem connectivity
- Result-oriented KPIs driving performance and results

Financial Performance

- Superior profitability on back of robust growth
- Industry-leading margins and strong cash generation
- Value investment opportunity with strong upside potential

Our Competitive Advantages

Notes

1. According to Horizon Consulting Group and State Post Bureau for 2015, 2016 and 2017

2. According to State Post Bureau for 2015, 2016 and 2017

Market Opportunities

Online Retail Sales (GMV) in China Maintaining Robust Growth

Note

1. Micro merchants refer to online merchants who promote and sell merchandise on social networking and other mobile platforms.

Our History and Key Milestones

Our Distinctive Network Partner Business Model (“NPM”)

Our End-Customers

- E-Commerce merchants
- Enterprise clients
- Individual consumers

Our Network Partners

- We engage our network partners to provide pickup and last-mile delivery services
- Our network partners are also our direct customers, paying us a fee for each parcel transited through our network
- ~9,400 Network Partners¹
- ~29,500 Pickup/Delivery Outlets

Our Core Network

- 83 Sorting Hubs²
- 4,700+ Line-haul Vehicles³
- 1,860+ Line-haul Routes⁴
- >98% Cities and Counties Covered

Our Business Scale

- The largest express delivery company in China by market share since 2016
- 2,116M Parcels⁵ in 2Q 2018

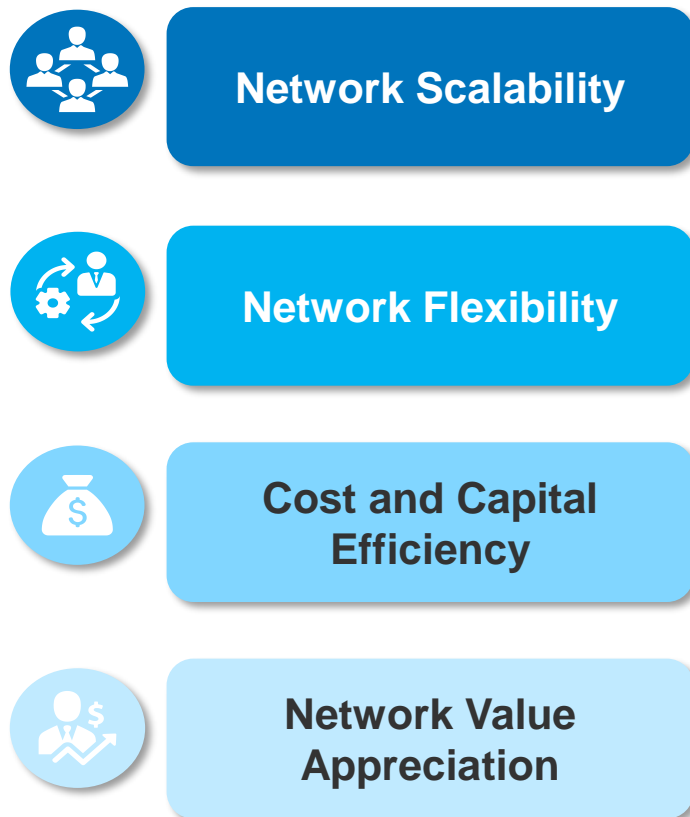

Notes

- Includes over 4,000 direct network partners and around 5,400 indirect network partners as of June 30, 2018; Conduct business relationship through corporation agreement
- Includes 76 self-operated sorting hubs, and 7 sorting hubs operated by our network partners
- Includes over 3,800 self-owned vehicles and over 900 vehicles owned and operated by Tonglu Tongze Logistics Ltd., an entity majority owned by our employees
- Only includes line-haul routes between sorting hubs as of June 30, 2018
- “Parcel volume” in any given period is defined as the number of parcels collected by our network partners using our waybills

Network Partner Model Widely Adopted

- Explosive growth of e-commerce in China demands scalability and flexibility
- Network partner players gaining market share from direct model players;
- ZTO network partner model offers the most stability than peers

Network Partner Model Best Suited to Enable E-commerce Growth

Network Partner Model Has Become a Predominant Model in Industry

In terms of parcel volume

Source: iResearch Report

Notes

1. Include SF, EMS and other express delivery companies that use direct model. EMS market share based on assumption

Our Experienced Management Team

Meisong Lai

Founder, Chairman
& Chief Executive
Officer

- 17 years of experience in express delivery industry
- Deputy chairman of the China Express Delivery Association

Jianfa Lai

Co-founder,
Director and Vice
President of
operations

- 17 years of experience in express delivery industry
- Former executive director of ZTO Supply Chain Management Co. Ltd.

Jilei Wang

Director and Vice
President of
Infrastructure
Management

- 12 years of experience in infrastructure management
- Former deputy general manager of ZTO's network partner in Beijing

Huiping Yan

Chief Financial
Officer

- Over 26 years of experience in corporate and financial management
- 11 years at GE in US and Asia, 8 years in public accounting and tax consulting
- 5 years in largest Chinese hotel chain management and 2 years in TMT/logistics

Renqun Jin

Vice President of
Development
Research Center

- 26 years of experience in express delivery industry
- Former vice president of TTK Express and STO Express

Notes

1. According to Horizon Consulting Group

2. According to State Post Bureau

3. Tongdas refer to ZTO Express, YTO Express, STO Express and Yunda Express, all of which are major express delivery companies in China that adopt the network partner model

Scale and Nationwide Network Create High Entry Barriers and Strong Network Effects

98%+ County-level City Coverage

83 Sorting hubs¹

29,500+ Service outlets

- ✓ **Nationwide** Network Coverage
- ✓ Critical Scale at Right Locations Leads to **High Barriers** to Entry
- ✓ **Network Effect** Reducing Unit Costs
- ✓ **Standardized** Customer Services at the Last Mile
- ✓ **Global** Connectivity Capturing **Cross Border e-Commerce** Demand

Notes

1. 76 self operated sorting hubs and 7 networks partner operated sorting hubs as of June 30, 2018.

Centralized IT System

- Integrated IT system to monitor each service outlet
- Customized IT solutions to equip network partners and outlets with the best management practice
- Tailored mobile app to connect all delivery personnel

Performance-based Incentives

- Comprehensive and results-driven KPIs based on parcel volume, service quality and profitability
- Well established rewards system
- Elimination of weak performers to ensure the competitiveness of service outlets

Quality Control and Monitoring

- Over 1000 customer service representatives across the country to ensure service quality
- Real-time monitoring and analysis of parcel volumes
- Frequent reviews with regional management

Training and Advancement

- Comprehensive training to improve operational efficiency and service quality of network partners
- Consistent training on new systems and products for service outlets
- Field visits to help service outlets improve operational management

Stable Network
Network partner turnover rate less than 5% in 2017

Sustainable R&D capabilities enabling end-to-end digitization of processes and user experience

Connectivity & Visibility

- Real time data **synchronized** at **centralized** data repository
- **Connecting all users** through digital devices, mobile apps and desktop suits:
 - Pickup & Delivery personnel
 - Network partners & outlets
 - Vehicles and drivers
 - Senders & recipients

Integrated IT R&D Platform

Automation & AI Solution

- **Proprietary AI algorithm** for addresses recognition, codification and location-based computing
- Deployed **automatic sorting equipment** with integrated embedded **sensory system** to record weight and size

Progressive & Transformative

- **In-house R&D capability** with 500+ tech talents
 - 14 software copyrights and 1 patent as of Dec 2017
- **Cutting-edge technologies**, e.g. facial recognition & machine learning

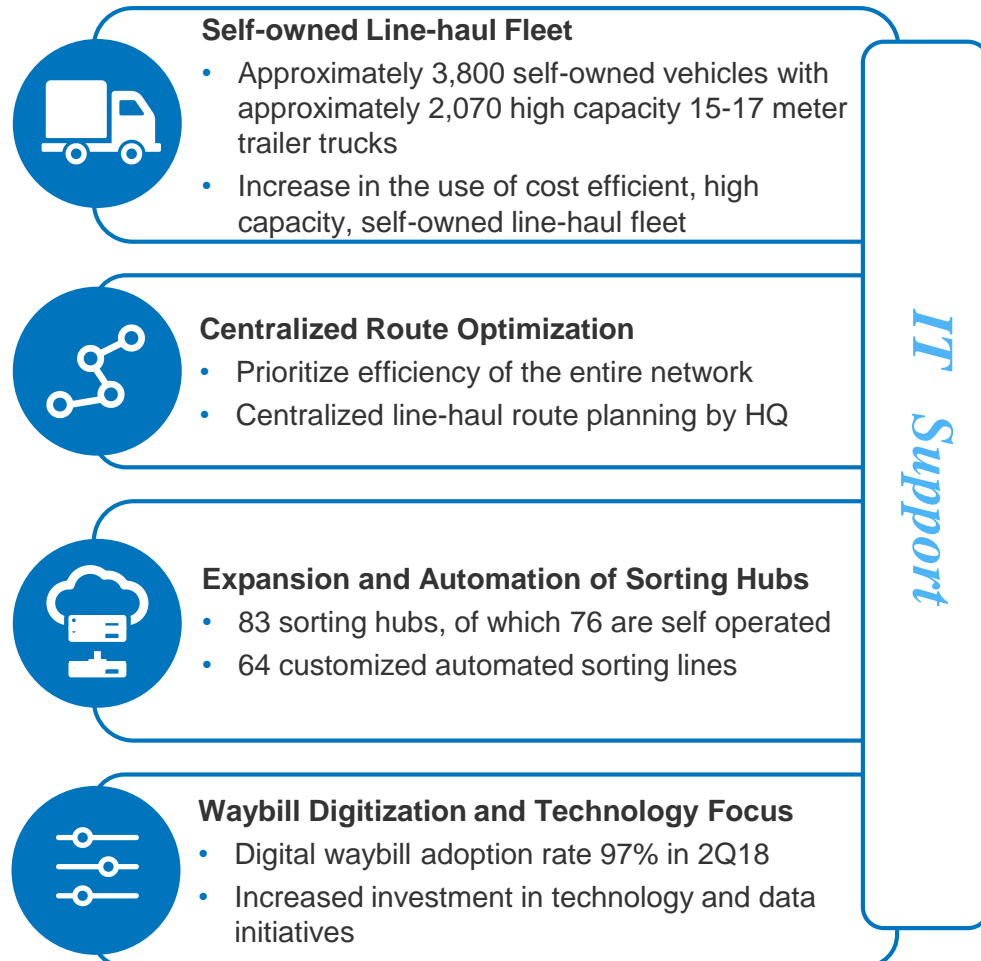

Openness & Empowerment

- Customer-centric data-driven open platform enabling **operational ease & fair allocation of profits**, e.g.:
 - For network partners: proprietary SaaS customized with data analytics against **best practice benchmark**
 - For couriers: transparent pickup & delivery fee, verified for competitiveness

Our Strong Operational Efficiency and Cost Leadership

Continued Operational Improvements

Significant Cost Productivity

Unit cost ⁽³⁾ (RMB per parcel)

Notes

1. Unaudited pro forma results assume all acquisitions occurred as of Jan 1, 2014. The results have been prepared for comparative purpose only based on management's best estimate
2. Adjusted for RMB213MM payment made in 2014 for compensating certain ZTO shareholders for their cessation of business
3. Sum of cost of revenues and total operating expenses of the applicable period divided by total parcel volume during the same period
4. Excluding COE business which was acquired by company in 4Q2017

Robust Growth

2,116m parcel volume,
+41.7% YoY, above
industry growth of 25.0%⁽¹⁾,
beating Q2 2018 guidance

Line-haul
Vehicles⁽²⁾

~29,500
Pickup/Delivery
Outlets⁽³⁾

83
Sorting Hubs⁽⁴⁾

Notes

1. Average industry parcel volume growth rate for Q2 2018 is calculated from the State Post Bureau.
2. Includes Number of self-owned trucks increased to over 3,800 as of June 30, 2018, from 3,500 as of March 31, 2017, among which the number of high capacity 15-17 meter long models increased to over 2,070 as of June 30, 2018, compared to over 1,900 as of March 31, 2017.
3. Number of total service outlets across entire network as of June 30, 2018, an increase from about 28,700 service outlets as of March 31, 2017.
4. Includes 76 self-operated sorting hubs, and 7 sorting hubs operated by our network partners.

Strong Revenue Growth Driven by Robust Parcel Volume Growth

Parcel Volume

Total Revenue

Quarterly Parcel Volume

Quarterly Revenue

Strong Profit Growth and Healthy Margins

Income from Operations and Margin

Net Income and Margin

Adjusted EBITDA¹ and Margin

Adjusted Net Income² and Margin

Notes

1. Adjusted EBITDA is a non-GAAP financial measure, which is defined as net income before depreciation, amortization, interest expenses and income tax expenses, and further adjusted to exclude (i) shared-based compensation expense; (ii) gain on disposal of equity investees, and (iii) impairment of equity investments.

2. Adjusted net income is a non-GAAP financial measure, which is defined as net income before (i) share-based compensation expense, (ii) gain on disposal of equity investees and (iii) impairment of equity investments.

Cost Efficiencies and Productivity

Cost of Revenues - Breakdown

(RMB million)

Gross Profit and Margin

(RMB million)

Cost of Revenues per Parcel¹

(RMB)

Key Observations on Q2 2018 Results

- **Line-haul transportation cost efficiency –**
 - ✓ Increased use of high-capacity trailer trucks
 - ✓ Better route planning
- **Sorting hub cost efficiency –**
 - ✓ Ramp up of automation equipment with improved utilization
- **Cost of accessories sold per parcel**
 - ✓ increased in line with increases in digital waybill utilization (up to 97%)
- **Gross margin decrease** attributed to (i) mainly driven by parcel volume growth and cost of goods sold efficiency gain which was offset by price decrease, (ii) acquisition of freight forwarding business with lower gross margin of 4.5%, (iii) an increase of RMB111.4 million (US\$16.8 million) in dispatching costs associated with serving enterprise customers, (iv) an increase of RMB38.9 million (US\$5.9 million) in tax surcharges, and (v) an increase of RMB35.8 million (US\$5.4 million) in IT related costs.

Note

1. Cost of revenues per parcel is calculated based on costs of revenues divided by the number of parcels handled in a given quarter.

Strong Cash Flow and Continued Investment in Capacity Expansion

Operating Cash Flow¹

(RMB million)

Capital Expenditure

(RMB million)

■ Purchases of Land Use Rights
■ Purchases of Property, Equipment and Vehicles

Cash and Cash Equivalents²

(RMB million)

■ Cash and cash equivalents
■ Restricted cash
■ Short-term investments

Note

1. The operating cash flow in 2016 has been retroactively adjusted to reflect the impact of restricted cash presentation in the cash flow statement as a result of ZTO's adoption of a new accounting standard starting from 2017.

2. Including cash and cash equivalents, restricted cash and short-term investment.

Per Parcel Unit Economics

Note:

1. Freight forwarding business not included
2. Numbers may not add up due to rounding
